Hon. Harry St. George Tucker Opened Campaign In Monterey Tuesday

Hon. Harry St. George Tucker opened his campaign for congress at Monterey in Highland County, Tuesday, when he spoke to a large audience in the courthouse at noon. Mr. Tucker received an enthusiastic reception. Among those in his audience was Mrs. Pachal D. Williams, widow of an old friend who nominated him for congress in Staunton in 1888.

During the course of his remarks Mr. Tucker discussed fully the child labor amendment passed by congress and submitted to the states for adoption. The following resolution was offered by Captain Louis McClung relative to the amendment and was unanimously adopted:

The people of Highland county, Virginia, in mass meeting assembled, having learned with humiliation and regret that the congress of the United States had passed, and submitted to the several states for adoption, an amendment to power to enact laws "to limit, regulate, and prohibit" the labor of all persons under eighteen years of age, do hereby instruct the delegate and senator to be elected from this county and district to vote against such amendment when offered in the general assembly of Virginia, and to use all proper means in their power for its rejection by the State of Virginia,

And we take occasion to warn, and to point out to, our fellow citizens in other counties of the state that this is not what is generally known as a child labor amendment to prevent children from being worked in dangerous or unhealthy occupations, but that it is a bold attempt to destroy our social system, founded by Almighty God in His holy scriptures on the family with the obligations of control on the part of the parent and of obedience on the part of the child by giving such control to the government of the United States at Washington, to whom obedience will be exacted instead of to the parent.

That this is the object of the amendment is conclusively shown by the fact that when it was under consideration in the house, Mr. Moore of Virginia offered the following amendment:

"Section 1. The congress shall have power to limit, regulate, and prohibit the labor of persons under sixteen years of age, but not the labor of such persons in the homes and on the farms where they reside."

This was promptly voted down by the house.

Mr. Ramseyer offered the following amendment (Congressional Record, page, 7481):

"The congress shall have power to limit, regulate, and prohibit the labor in mines, quarries, mills, workshops, factories, or manufacturing establishments, of persons under sixteen years of age."

This also was rejected overwhelmingly. The same identical or similar amendments were offered in the senate and rejected.

Could proof be stronger that the intent of those proposing this amendment is to destroy the family relation by substituting "Uncle Sam" as the parent of the children of the states to whom obedience will be solely due.—Rockbridge County News August 7th, 1924.

Fish

Most people think of fish as cold, dull and stupid things without any trace of what we call in the animals "human traits". And many persons who would under no circumstances shoot a deer or harm any of the big, furred people of the woods, go cheerfully forth with a rod and pull up on a sharp hook fish after fish—that is if his or her luck is good.

But recent investigations of science reveal some remarks y interesting and surprising facts. Fish that take one wife for life, fish that sing and "talk" to each other, fish that climb up trees for their afternoon nap, fish that can change their skins to match what ever their eyes see—and many other new and astonishing discoveries, all of which Sunday's New York Sunday American.

Buckingham Shooting

Emmett D. Gregory, aged about 60 years, shot Charles Jones, Jr., aged about 25 in a restaurant at Dillwyn on Monday. It is said they had a fight some years ago, but just what started the row no one seems to be able to say. Jones was shot several times at close range, two of the shots taking effect. The wounded man was rushed to University Virginia hospital, where it is reported he will recover. Mr. Gregory is a prominent Republican politician in his county and is widely known as a real estate man. He was promptly arrested and confined in jail at Buckingham C. H.

Col. Button

Col. Joseph Button is expected to return this week from Seattle, where he attended the annual meeting of the national convention of insurance commissioners. He was re-elected secretary of the body at the meeting. A resolution offered by him calling for standardization of laws effecting unauthorized insurance was referred to a committee handling that subject. A report will be made at the mid-winter meeting.

STATE CAPITAL

State Will Send Big Quota To Meet.

Richmond—

What is believed will prove to be the largest delegation that has ever represented the Virginia Department of the American Legion is expected to be sent to the national convention to be held in St. Paul, Minn., September 15 to 19. A large Richmond delegation is expected to head the State delegation.

Eighty legionaires and members of the auxiliary attended the joint convention at San Francisco last fall. Because of the interesting itinerary planned by department headquarters and the shorter trip, a much larger number is expected to attend the St. Paul convention.

Department headquarters will distribute certificates, providing for reduced rates, within the next few days. All who plan to attend the convention are requested to immediately notify headquarters, so that hotel and Pullman reservations may be made.

The twin cities, Minneapolis and St. Paul, are making elaborate plans in anticipation of the 100,000 visitors to the convention. Because of the membership of the Virginia Department in the national organization, Virginia will have a place of honor in the monster parade to be held in connection with the convention.

Virginia is fourth among the States in percentage of membership for 1924, as compared with 1923, having exceed ed its 1923 membership by more than 1,000.

Each post in the State has arranged to send a record-breaking quota. Every year an effort is made to have as many legionaires from Virginia, in as widely scattered sections as possible, attend the convention. Great help along all lines of legion work is reported from those attending the national gatherings.

Stage Style Show.

Coincidental with the annual Southern Merchants' Conference, to be held Richmond August 19, 20 and 21, will be launched a style show and industrial exposition in the Mines' Armory under the auspices of Samis Grotto. Upwards of 1,000 delegates to the conference will be attracted as known as "Miss Richmond."

With the second and third choices merchants' conference, with their families, will be the guests of the show style show, and the first choice of a committee of three judges will be of the judges, "Miss Richmond" will take a prominent part in the show. Six others of Richmond's attractive young women will be selected as models, this number to be augmented by four professional models from New York City. A pantomime, in six episodes, an orchestra, cabaret and dancing will be other features of the show and exposition.

Dry Agents Active.

Prohibition agents in all parts of the State are reporting to the State Prohibition Commissioner arrests of men under the influence of liquor, driving cars recklessly, and fighting. In several instances heavy fines and jail terms have been imposed on the offenders.

Inspector T. M. Graveley reported from Graham the capture of a fifty-gallon copper and wood still near Farraday, which he destroyed.

Forest T. Taylor, of Staunton, arrested Charles A. Deeper, charged with storing half a gallon, and the man was jailed.

J. T. Chaney, of South Boston, arrested Causey Riggins, of Chrisetia, on the charge of transporting. The man was balled. He also arrested John Lowry and Charles Watts on similar charges, and they were balled.

S. S. Paxson, of Nofrolk county, sent in a number of reports of the capture of several small stills and twenty-five gallons of liquor, but there were no arrests.

Oyster Outlook Good.

Due to a bad season, the Menhaden fishing industry, for fertilizer, has been almost a total failure. Colonel W. McDonald Lee, Commissioner of Game and Inland Fisheries, stated upon his return from a survey of the oyster field. Cold rains have kept the fish out at sea, he reported. The outlook for an excellent oyster season is good, Colonel Lee stated.

No More Thirteen-Cent Stamps.

Uncle Sam is not superstitious, but he has called off the printing of 13-cent stamps. Postmaster Stewart was notified that no more stamps of this denomination would be issued when the stock now on hand is sold.

Attend Eagles' Convention.

Dixie Aerie, No. 235, Fraternal Order of Eagles, will be represented by ten members at the national convention of the order at Providence, R. I., the week of August 11. They are: H. E. Griffin, past junior worthy president; Edward R. Fuller, a member of the judiciary committee; Otto Harris, James Harris, Albert Spies, Garland Priddy, Joseph G. Baker, Fred Waters, Walter Lotz and Denny O'Dwyer.

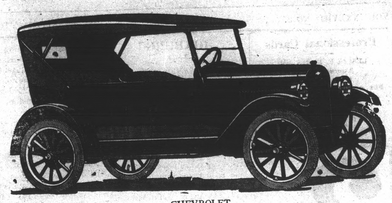
Health Insurance for the Whole Family



CHEVROLET

Without counting the daily utility of a Chevrolet for going back and forth to work, shopping or taking the children to school, etc., its value in saving doctor's bills, broadening your mental horizon and keeping the whole family physically fit, amounts to more than the cost of the car and its upkeep. It is more of an essential to the modern family than anything else but a home. Chevrolet meets the requirements of the modern family because it is economical to buy and maintain, because of its excellent appearance and riding comfort, because it can be depended upon, and because it is so easy to drive that any member of the family can use it.

FIRESTONE TIRES
The Source of Extra Mileage

FIRESTONE has come to the strategic position of being able to give greater tire value, through its twenty-two years of experience and growth.

Only the cumulative knowledge that Firestone possesses, the highly developed manufacturing and distributing organization, and the gathering of a corps of skilled designers and builders, could account for Firestone quality, sold at prices so low as to create an extraordinary tire value.

The volume of Firestone production, permits buying economies, and the reduction of overhead expense. This, in turn, has made it possible to adopt superior, but costlier processes that have resulted in a big mileage increase.

Notable among these is double gum-dipping—a special Firestone process of first importance. In the majority of cord tires the individual plies of cord fabric are merely coated with rubber—known as "calendering." Firestone immerses the cord fabric in vats of liquid rubber then applies two coats of rubber to each ply.

The purpose of this is to overcome internal friction—the wear caused by one cord rubbing against another. The carcass thus built, is livelier, stronger, capable of delivering more mileage.

The above is cited merely as an example of how Firestone proceeds to give you greater value. In tread design and compound, in air-bag curing, rubber blending and tempering, bead and sidewall construction, you will find other advantages that enter into the ultimate result—uniformly greater mileage and increased enjoyment from your car. The volume of Firestone distribution enables us to offer the following reduced prices.

30x3	Special Tires	$ 6.35	Tube	$1.35	
30x3½	Cord "	10.00	"	1.50	
32x4	" "	21.00	"	3.10	
32x4½	" "	27.35	"	3.50	
30x3½	Special Tires	$7.35	Tube	$1.50	
31x4	Cord "	19.10	"	2.96	
33x4	" "	22.00	"	3.35	
33x5	Truck Type "	36.95	"	4.50	

Firestone prices carry a saving in dollars and cents that you cannot afford to miss. Come in and let us talk it over with you.
